1 The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.

2 The load capacity of your motor home is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motor home.

3 Capacities are based on measurements prior to tank installation. Slight capacity variations

can result due to installation applications.

4 Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.

5 Actual towing capacity is dependent on your particular loading and towing circumstances, which includes the GVWR, GAWR and GCWR, as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.

6 See separate chassis warranty.

7 See your dealer for complete warranty information.

NA Not Available

S Standard

O Optional

Not all items available in combination. See dealer for details.

Winnebago Industries'® continuing program of product improvement makes specifications, equipment, model availability and prices subject to change without notice. Comparisons to other motor homes are based on the most recent information available at printing.
